## **bébé**

South Yarra - Melbourne

Bebe is a successful retail store for children, babies and mothers to be.

3D Comm were recommended to Bebe who asked us to design + fit out their new retail store in South Yarra (Melbourne). These include a central counter, shelving units, plinths and a large pram display wall.

Working in partnership with our client, we designed series of modern, functional and cost effective solutions which both reflected our client's vision for their new store and would stand up to the rigors of a fast paced retail environment.
