## BlueScope Water

BlueScope Water is a leading manufacturer of water tanks and water management products which have been specially designed to help conserve our most precious natural resource.

BlueScope Water came to 3D Comm looking for a new design concept for their stand at a series of exhibitions. We presented them with a clean modern design in keeping with their corporate marketing that could be rebuilt for future exhibitions.

BlueScope Water won the Best Stand Award at the Save Water Save Energy Expo.

When BlueScope Water recently opened a new Retail Showroom they turned to 3D Comm to create an inviting atmosphere for public and trade customers to view and learn about the full range of products available.

### Testimonial

"Thank you for all the help and support given to organising this Expo. The display looked awesome."

Susanne Brush  
BlueScope Water Pty Ltd

MODERN, STYLISH, FUNCTIONAL...
