Singapore_AIME

Melbourne Convention & Exhibition Centre

The Singapore Tourism Board is responsible for promoting Singapore as an international tourist destination and a regular exhibitor at the AIME, the largest exhibition of its kind in the region.

3D Comm was one of a number of companies invited to tender for the design + production of their 180sqm stand.

The brief requested that the stand design referenced the recent international Singapore stands and accommodated the unique requirements for this exhibition. This demanded a creative and cost effective solution that maximised the available space, and an innovative approach to production so it could be installed within a limited timeframe.

3D Comm were awarded the contract and delivered on time + to budget...helping the Singapore Tourism Board have a successful AIME.

UNIQUELY
